

Hannah, Casey and Oscar working on Math together.

11/3/22

Issue #10

Mr. Faris' Facts

I was so blessed to be able to meet with you all and discuss your child's learning and development. It actually gives me so much more insight into each student—especially our fourth grade students as I am still getting to know them. If you have any other questions or concerns, please contact me. I am very proud of this class and the growth they have made already.

We want to thank all of our 6th grade students for helping to plan and set up our Halloween party. Thanks to everyone who helped out with snacks and drinks. A special thanks to Skyla-Jo and Breckin for creating games.

We have been digging into more about the 13 colonies. Now we be learning a little more about specific colonies; when they were settled, their founders, and interesting facts. This will all move into the idea of "Taxation without representation", and lead into the start of the American Revolution.

I just received the dates for our Peterson Bay field trip in the spring. It will be from April 19th to April 21st, Wednesday to Friday. The cost for each student and adult is \$160. If you can begin making payments please do so, as we have to have 30% of the cost turned in as a down payment by February 1st. If you would like to chaperone on the trip please let me know ASAP.

I added several events to the sidebar on the left. Please take note of these additions. I know there will be more as we approach the holidays. One will be caroling around town with a younger class.

Thanks for all you do. Please contact me if you have any questions or concerns.
